Erik's Tip

To make the rows, you need 48 blocks ; you will have 2 left over--trade out these blocks as you arrange your rows to your liking !

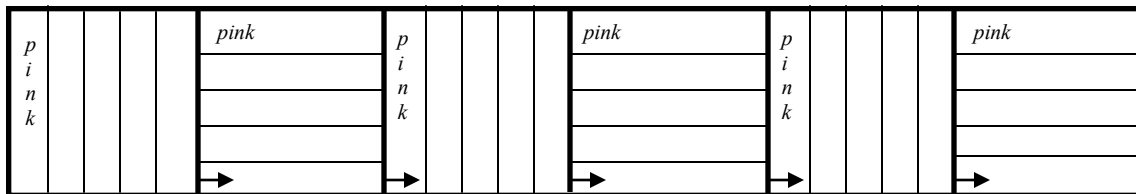

Step 3: Sewing

Lay out the **Step 2 Cutting** blocks in a way that pleases you--six across; sew the **Step 2 Cutting** blocks into **A** and **B** rows as shown below. Make 4 of each row. Page 4 has the diagram of the center of the quilt to help you lay out the blocks. Sew rows together as on Page 4.
