

Erik's Tips:

The blocks you are making in this step round out the 12-inch blocks needed to complete the center field of the Traditional Setting. If you wish to use another color other than **Beige**, that is up to you; your personal color choice may prove otherwise. We made **2** matching sets, however you may choose to put together random blocks using any of the previously made 6 1/2-inch blocks since they are interchangeable. One set of blocks will be towards the center of the quilt and the other towards the outer edge. Do as you like...match them or mix them...the choice is yours!

The remaining 6 1/2-inch blocks will be used later in the quilt's assembly!
