

Christmas 2010 Mystery Quilt

This week we put the center field together! The quilt isn't finished yet...we have borders yet to make as well as a little dimensional appliqué (if you like)! See you next week!

Supplies

sewing machine and matching thread

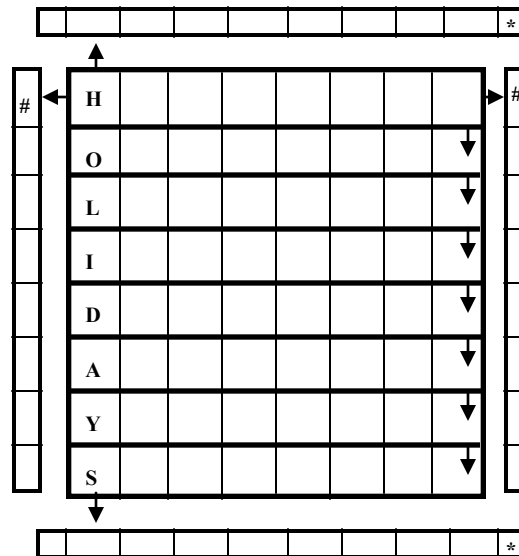

1/4-inch seams throughout, *unless noted*

Step 21: Cutting

There is no cutting for this step!

Step 21: Sewing

Sew together rows **H, O, L, I, D, A, Y, S** in order following the diagram below, matching seams --flipping as necessary so that all seams lay flat. Sew rows # to each side, flipping seams, if necessary. Sew rows * to top and bottom, flipping seams, if necessary. *Press seams in the direction of the arrows.*

Erik's Tip!
 It may be easier to sew the rows together in pairs and then sew the pairs of rows together.
