

Christmas 2010 Mystery Quilt

This week we add the inner border! Use 1/3 yard, or make it scrappy green...it is up to you! We are almost done with the quilt top; see you again next week...you will need your reds!

Supplies

1/3 yard green, or scraps of green width-of-fabric
sewing machine and matching thread

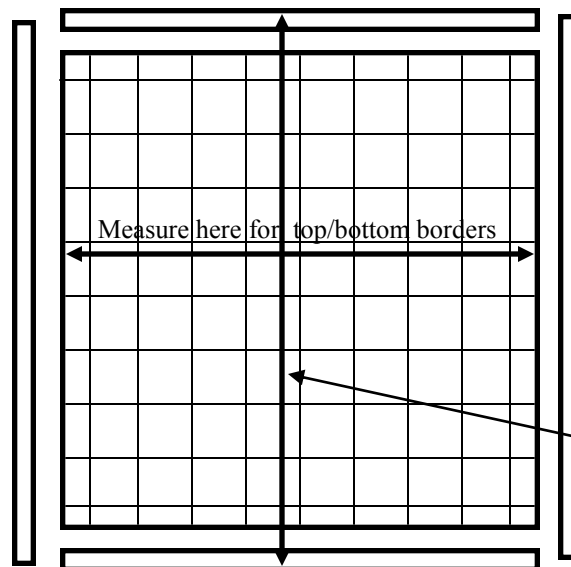

1/4-inch seams throughout, *unless noted*

Step 22: Cutting

5, 2-inch strips (cut width-of-fabric)

Step 22: Sewing

Diagonally piece the *Step 22 Cutting* strips making enough to fit around the quilt center as shown in the diagram below. Measure your quilt through the center as shown by the arrows to cut the top and bottom borders; sew to quilt. Repeat for the side borders, following the measurement from the arrows; sew to quilt. *Press all seams outward.*

Erik's Tip!

For our sample, we sewed all of the 2-inch strips together then cut our border pieces as needed.

Measure here for both side borders, once the top/bottom borders are sewn to the quilt.
