

Christmas 2010 Mystery Quilt

Add another border using red scraps this week! Your left-over *Step 17* strips will give you a head-start...make another set to blend with the rest! We are almost done...see you again next week!

Supplies

scraps of red fabric width-of-fabric
 sewing machine and matching thread

1/4-inch seams throughout, *unless noted*

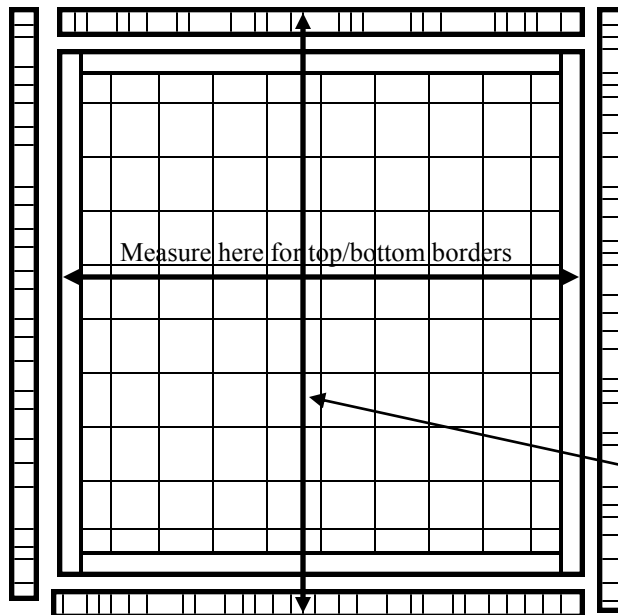

Step 23: Cutting

Make another *Step 16* strip set using the instructions on page 17. Cut left-over red strip sets from *Step 17* along with the (new) *Step 23* strip set cross-wise into 2 1/2-inch pieces.

Step 23: Sewing

Sew 2 1/2-inch *Step 23 Cutting* pieces together, in random fashion, to make border pieces 2 1/2-inch by measurements taken through the center of the quilt. Add borders, as before, following diagram.

Press all border seams outward.

Erik's Tip!

You may need to make more than one *Step 16* strip set, depending on your scraps!

Measure here for both side borders, once the top/bottom borders are sewn to the quilt.
