

***Constructing the sashing units, cont:***

Layer another prepared **Gold** scrap 2 1/2-inch square, overlapping as shown, in the opposite corner, stitch on the drawn line and trim seam allowance; press, as before.

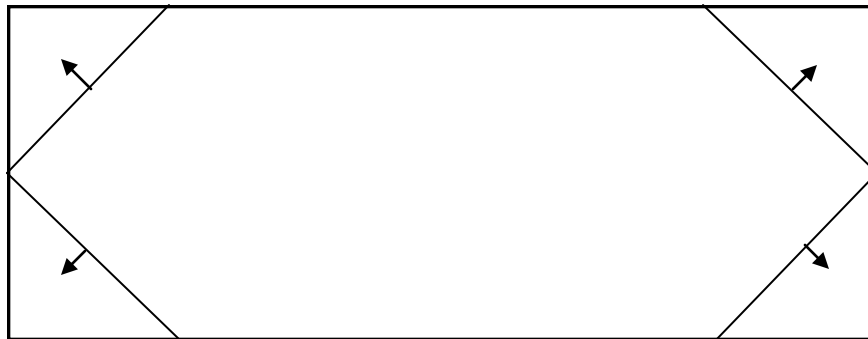

Stitch, then cut;  
press outward

Repeat for remaining corners: stitch , cut  
press outward.

Repeat until *all* four corners have been trimmed with a **Gold** scrap square. Make **20** sashing units with *all* four corners trimmed as in the diagram below. *Set aside the remaining 18 un-trimmed sashing strips to use later in the project.*

***Sashing Unit:***

Make 20

Each sashing unit should measure  
12 1/2 by 4 1/2-inches
